HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed, so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JUNE 25.

Washington News

WASHINGTON, June 24.—The President to-day signed the appointment of J. H. Williams, as agent of the United States, under the convention at Mexico. John Cochrane is appointed Collector of Internal Revenue, for the Sixteenth District of New York.

Col. Whitely, Chief Treasury Detective, assisted by John Clarnor, has made arrests in Pennsylvania, Maryland and New York, and several Western States, of counterfeiters and counterfeit money, plates, presses, dies and other material. About a dozen men have been arrested during the last six weeks. In Indiana, a gang was arrested at Fort Wayne. A few days ago, while engaged in making money, $400,000 counterfeit notes and 25 cents currency were seized, with twelve sets of steel plates, fifty sets of dies, presses, etc.

Solicitor Banfield has determined to support Col. Whitely to the fullest extent of law, and break up those gangs of counterfeiters whose operations ramify all over the country. Important arrests and seizures will be made and given to the public in a few days, which will show the complicity of expert counterfeiters equal to anything ever before heard of in this or any other country. The 25 cent note counterfeit just captured, is a finished imitation. A large amount have been circulated by a gang.

The arrest of a Government officer in western New York, who was found to be in complicity with Sims' friends expended $20,000 to obtain his pardon several years ago.

The President has decided that the restriction preventing army officers from holding civil office, does not apply to the retired list. This decision enables Gen. Sickles to accept the Spanish Mission, he relinquishing army pay during the occupancy of this mission, but to be continued on the army register. He will leave for Madrid about the 15th of July. Hale will await his arrival there. There is no probability that Perry will be reappointed Secretary of Legation.

The President will, on the 10th of July, after the Virginia election, order an election in Mississippi for the 15th of September, and in Texas for the last of September or first of October.

The Department of State has received dispatches from General McMahon to the 21st of April, at which time he was well. His relations with Lopez were so cordial and friendly that after the great defeat of the Paraguayans, he was entrusted with the care of Lopez's family. There has been no attempt by Lopez to interfere with his free communication with his Government, and whatever impediment existed is attributed to the course of the allies, in declining to send or receive the flag of truce, and in firing upon that sent by the Paraguayans with McMahon's dispatches.

WASHINGTON, June 25.—The Commissioner of Indian Affairs has received letters dated May 31st, from George W. Dent, Superintendent of Indian Affairs, of Arizona, to the Secretary, in which he gives a sad statement of the conduct of the Indians. News of depredations come from all parts. They made attacks on horse and wagon trains in the vicinity of Camp Vere, wounding and killing several men and driving off the stock. The same scenes have been enacted near Camp Lovell. The river Indians of the Gila and Colorado are just now engaged in planting. The trouble he says is owing to the temporary removal of the troops from the posts of the Territory.

The *Tribune's* Washington special says the Navy Department will soon offer for sale five iron clads, now laid up at New Orleans.

The President and Cabinet have been looking over grounds for the site for a new Executive Mansion to be recommended to Congress. It is understood that they have substantially agreed upon a locality in the northwestern part of the city.

The competition for the Examinership of the Patent Office has commenced. There are 17 candidates, including J. Parkinson, a graduate of the Deaf Mute College.

CHICAGO, June 25.—A Washington special says an unfounded story has been circulated that Ruiz, the Cuban envoy, had an interview with the President, as a private individual. He called on Secretary Fish, but nothing of significance transpired.

New York News.

NEW YORK, June 24.—The *Star* announces that S. S. Conant, managing editor of the *Times*, has succeeded Raymond as editor in chief.

The returns of the votes of 516 churches, on the question of Lay Delegates, show 376 affirmatives and 109 negatives.

The annual regatta of the Brooklyn Yacht Club took place to-day. Thirty vessels participated.

Intelligence has been received by a commercial house in this city, that a rebellion has broken out in Arrayo, Porto Rico, which was deemed formidable. News of the event had been received at different points on the Island and caused profound excitement.

NEW YORK, June 25.—The *Tribune's* New York special says the movement has commenced to extend the organization and work of the Citizens' Association throughout every city and county in the State. The movement is independent of parties.

Two thousand Remington rifles and a million cartridges will be shipped to Havana next week, for the Spanish Government.

Col. Ryan, who escaped from the Deputy Marshal, was seen in New York yesterday, having failed to get off for Cuba. The steamer is still waiting outside Sandy Hook.

Whitlock & Wallace, produce dealers, suspended yesterday with heavy liabilities.

Four patients died in the hospital ship yesterday of yellow fever. The quarantine officers say there is no danger of the disease spreading into the city.

Resignation of Secretary Borie—His Successor Sworn In.

WASHINGTON, June 25.—Borie has resigned the Secretaryship of the Navy, and M. Robertson, of New Jersey, formerly Attorney General of that State, has been appointed in his place, and was sworn in at noon to-day. He will attend the regular Cabinet meeting to day. Borie felt compelled to resign, from the pressure of private duties.

Volunteers for Cuba.

WASHINGTON, June 25.—The Charleston *News* of to-day says the steam propeller *Aspinwall*, which left Charleston with dispatches for Hayti, on Sunday, also carried a number of volunteers for the Cuban army. Some were residents of that city, but a large part were non-residents, and seemed to come there by appointment.

Pennsylvania Republican Convention

PHILADELPHIA, June 24.—The resolutions adopted by the Pennsylvania Republican State Convention, rejoice over the victory of 1868, which secured peace to the nation, approve the principles and policy of President Grant's administration, endorse the sentiments contained in his inaugural, repose confidence in the national administration in its endeavors to settle the difficulties with Great Britain, approve the rejection by the Senate of the late treaty on the *Alabama* claims, sympathise with the struggling people of all nations in their efforts to obtain universal freedom and the inalienable rights of man, endorse the administration of Governor Geary and the nomination of Judge Williams, reiterate and affirm their adherence to the doctrine of protection, and pledge a hearty support to the party nominations.

Maine Republican Convention.

BANGOR, Me., June 25.—The Republican State Convention is the largest ever convened in this State. Nearly every town is represented. Hon. L. H. Morrill is permanent President.

On the first ballot for Governor, Joshua Chamberlain received 694 votes, and Sidney L. Perham 375. The nomination of Chamberlain was then made unanimous.

Resolutions were adopted pledging support to the Administration, favoring development of the material interests in the State, counseling economy in State and municipal expenditures, renewing adhesion to the cause of liquor prohibition, and a rigorous enactment to that end.

Southern Prospects

NEW YORK, June 25.—Senator Abbott, of North Carolina, says that things in his State are very quiet. The people are generally at work in that section, making good progress in that direction. Crops in that State, as well as in South Carolina, Georgia and Florida, are all looking well. He speaks of the corn in his own State, and the rice in the neighborhood of Savannah, as particularly promising.

Imperialistic "Story"

An evening paper has a story that a secret society has been formed, with branches in the principal cities of the Union, for carrying the country over to Imperialism. Members are sworn to promote and support what is termed the Free Empire. It is proposed to establish an aristocracy with executive powers in the hands of a council, with one man at the head, who is to hold the position for life, and be designated Consul of the Free Empire of the United States. The title of Consul will be thrown away for that of Emperor as soon as public sentiment will bear the change. The man for this position has already been selected by the leaders of the movement.

The Board of Harbor Commissioners met to day and adopted the following preamble and resolution in reference to protection of piles against worms:

Whereas, It is deemed essential by the Board for the interest of the State to make some effort to protect piles and lumber used in wharf structures from the attack of the "toredo navalis" and decay and whereas, it is believed, from the investigations of the Board, that the process known as the Robbins Process, now being operated by the Pacific Wood Preserving Company will effect that object, therefore—

Resolved, That a contract be and is hereby awarded to the said Pacific Wood Preserving Company, for the treatment by said Robbins Process, of the piles, caps, stringers and 50,000 feet of the plank to be used in the construction of the wharves contracted to be built upon the eastern half of the streets between Pacific and Commercial streets, upon the terms and conditions of their proposal submitted on the 24th inst. The amount of lumber to be treated will be about 300 piles, 50 to 65 feet long, 150,000 feet of timber, and 50,000 feet of plank, at a cost of $10 per thousand feet. The plank will be laid so as to test the treated and that not treated side by side, to ascertain if there is any difference in the wear of the plank, and it is claimed that the Robbins plan hardens as well as preserves.

WEEKLY REVIEW.

PORTLAND, June .. 1869

Gold at New York, 137⅛@137½.

Five-Twenties of 1862, 122¼; of 1867, 119¾.

New York wheat market has advanced to $1 70@1 75.

Liverpool—Wheat has advanced to 10s 2d. Our last weekly quotation was 9s 7d. The advance in both these markets is attributable to the fact that the European and American yield promises to be less than has all along been anticipated.

San Francisco—Flour—Salem, Oregon, XXX, jobbing at $5@5 25, outside prices for small lots. Wheat—New, quotable at $1 40@1 50; fair milling $1 50. Santa Clara $1 60. Barley—Quotable at 95@1 00. Sales of 600 sks coast, new, bright, at $1 10; 100 sks do $1 15. Coast, old, at $1 00@1 50, and Bay at $1 10@1 25; brewing at $1 10. Oats—Common California $1 35; quotable at $1 55@1 65, and Oregon at $1 60@1 70.

Portland—There is nothing new to note in the produce market. Prices are without change. Movements are mostly confined to consignments to San Francisco agents. The *Pacific*, which sailed Wednesday evening, took a full cargo. A considerable is yet on hand waiting shipment. The *Gussie Telfair* and the *Geo. S. Wright*, both to sail Saturday evening for Victoria and Puget Sound, will take full cargoes of produce and merchandise. The trade between this city and the Sound ports has largely increased this season, owing to the unusual prosperity of the lumbering interests of the Sound, the railroad excitement, and consequent influx of population.

Merchandise Market—Trade in some lines has much improved. During the week the bills of dry goods, for [illegible], sold to the valley merchants, [illegible] larger than those of any week for near two months. Money is getting easier, and old bills are being settled off, greatly to the relief of trade generally. Advices from New York state that cotton goods are held more firmly. Sales of agricultural goods and farm machinery are quite free. Hardware is a trifle more buoyant. Groceries remain at former figures, with a moderate trade with this valley, and a temporary brisk demand for the upper Columbia and Snake rivers, the latter consequent upon the anticipated [illegible] of steamboat navigation for the summer.

Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC
MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, *enormous as it seems, is totally eclipsed by the magnitude of the interest* which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $6,952,167 27; here at 12 per cent. for four years, and 10 per cent. for six, compounded monthly, $25,690,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums of Policies already [illegible] at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is thereby devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in the city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, is a warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by a thorough Hydropathic and Hygienic treatment in our Cure. From all who have come to us and been treated we have yet to learn a single regret from Husband or Wife, if the time, means or trouble they expended in HYGEIAN MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $60 for six weeks (Board, Room and Treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and Lectures before the Ladies Hygienic Society the first Wednesday in each month.

PETALUMA, CALIFORNIA, Dec. [illegible]

For about twenty years I had used Tobacco [illegible] rious forms, and for the past eight years [illegible] inveterate smoker. Becoming satisfied that the [illegible] sive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for [illegible] the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine which I received through the mail on the 17th of November. A month has not [illegible] yet the medicine has effectually relieved me [illegible] yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conf[illegible] lieve the Preparation will have the promised [illegible] effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish use of Tobacco I offer this testimonial.

SAMUEL CESSIDLY.

Religious Intelligence.—The *Advocate* says "The Indian Camp-meeting held on the Yakima Reservation, W. T., closed on Monday last. The services on the last two days were of great interest. Twenty-one Indians and eight white persons united with the Church. The editor writes an interesting article concerning this camp-meeting, in which the "exhortations" of these converted Indians are given. Their remarks evince intelligence and piety. Of the 3,500 Indians on the Yakima reservation, 280 are professing Christians. They have two churches of their own, and several local preachers. Bro. Waller preached the opening sermon in Chinook Jargon.

At the Camp-meeting on Mill Creek, Wasco county, there were several conversions, and accessions to the church. The sum of three hundred and fifty two dollars was raised for the purpose of preparing a permanent camp ground.

At Albany, last week, about one fourth of the members voted on the question of Lay Delegation—the result being 5 for and 3 against.

Rev. W. H. Hillery, Presiding Elder of the African Methodist Episcopal Church, is in the city, and will preach on Sabbath evening, 7½ o'clock, at the Colored M[illegible] Hall, Alder st.

The *Mountaineer* of yesterday says: "The Baptist church, noticed in our last issue, was organized last Sunday, by Rev. E. C. Anderson, of Portland, and Elder Fisher, of this place. Fifteen members were enrolled on the church records as organizers."

Arrested and Indicted.—George Oakes, of whom we made mention yesterday morning as having committed a rape upon Mrs. Wilcox, was found on Thursday about [illegible], arrested, brought to this city and placed in the county jail. As near as we can get the particulars of the [illegible] and arrest, he evaded the officers and the neighbors, who were after him, by taking to the brush which, in that region, is very dense. He stayed out all Wednesday night, fearing to go to his camp or out upon any road, knowing that he was being hunted. Some time during Thursday, however, he went to Camp No. 7, some distance beyond his own, and took therefrom a coat belonging to the camp keeper, who was absent. Evidently supposing that the latter would not betray him, he left a scrawled note explaining that he had taken the keeper's coat and might be found at a certain well known tree, in the vicinity. The keeper returning and finding the message, immediately gave information to the officer and other pursuers, who at once went to the place and surrounded the tree. Oakes started to run, but a gun in the hands of a "dead shot," being brought to bear upon him, he thought best to surrender. The captors arrived with him at the jail about 11 o'clock P. M. Yesterday the Grand Jury took the matter under consideration and promptly found an indictment for rape. Oakes was arraigned and allowed till this morning to plead.

Dalles News.—From the *Mountaineer* of yesterday, we get the following:

At the municipal election last Monday, "Opposition" and Democratic tickets were run, the former being elected easily by considerable majorities. The following persons were elected: Mayor, E. Wingate; Recorder, Jas A. Campbell; Marshal, Peter Ruffner; Treasurer, F. Bohn; Aldermen, Robt. Grant, N. H. Gates, Z. Donnell, L. F. Moody and W. Hand.

Several large droves of cattle have been driven over the mountains from the Wallamet valley to this county lately. Also quite a large number of families have found their way hither for the purpose of making for themselves homes East of the mountains.

Mr. Samuel L. Brooks has been re-appointed Deputy C[illegible] of Internal Revenue for this Division. We understand Umatilla, Union and Baker counties are added to his district. He will enter on the duties of office so soon as instructions are received from the Collector of [illegible].

An immigrant train of eight wagons arrived from [illegible] last night *en route* for Puget Sound. They speak of Montana as unusually quiet on account of the scarcity of water for mining purposes. Large numbers of men had gone to try their fortunes in the new mines in [illegible].

[illegible] City News.—We learn from the *Enterprise* that [illegible]n fishing is yet going on at the falls.

The Indians are having a "medicine dance" on one of the [illegible] above town.

The ladies of the Congregational church are to have a fair and festival next Wednesday evening.

[illegible] E. Warren is to deliver an oration at the celebration at Soda Springs, in Clackamas county, on the 5th July.

Henry Himler was [illegible] last week of throwing dye upon the clothes hanging upon a line at a China washhouse; he compromised by paying the owner of the linen $[illegible]. Himler was fined $20 for assaulting the Chinaman.

The first few loads of brick have been hauled and laid upon the street in place for the Odd Fellows' Hall. The work will be vigorously pushed on, from Monday next.

The hook and ladder truck and hose carriage contracted for by David Smith, of Oregon City, have been finally completed and accepted by the Council. They cost the city five [illegible] and twenty-seven dollars.

From Salem.—The *Unionist* of yesterday furnishes the following items:

[illegible] of Wasco county, came up on the boat last evening in charge of three convicts [illegible]nced to the Penitentiary.

Mr. T. B. Rickey received his commission as Postmaster at Salem last evening. He will take charge of the office about the 1st of July.

The water is getting so low in the Wallamet river that it is with difficulty that the boats are able to make their [illegible] trips. The last time the *Success* came up she [illegible] on a bar below the city and lay there for several hours.

Gov. Woods has accepted the Dalles Military road, running from Dalles City via Canyon City, to Snake river, near Boise City. The maps of the road have been completed, one copy of which is filed with the Secretary of State, and another with the Secretary of the Interior, at Washington.

The Portland Water Works.—Since the publication of our item in relation to dead salmon lying along the shore, we find some people who are a little exer[illegible] about the quality of water they are getting from the Water Co. They need not be troubled. A large proportion of water consumed in the city, comes from the adjacent [illegible] and springs. The works at the river bank are constructed with a special view to avoid taking anything from the surface, where all offensive matter invariably floats. The pump takes water from a well sunk [illegible]ly beneath the engine, far below the surface of the river at lowest water. The supply pipe which communicates with the river, terminates in a large iron basket or sieve, sunk fifteen feet below low water mark. All water taken from the river, comes, thus, from the under-[illegible], which is always the purest water of the stream. The water used from the river may be warm, but it is [illegible]atively pure. Only those who dip water from the [illegible] have any need to be squeamish about its quality.

Failure of Crops.—We learn from the upper portions of this valley that much of the late sown grain, on dry and hilly lands, will be nearly a failure, in consequence of the extreme dry weather. There are reports of short crops, and similar conditions in California. Eastern Oregon is still more unfortunate. Mr. Robert Mays, of Tygh valley, informs the *Mountaineer* that the drought and [illegible] hot weather has so materially injured the grain crops in that part of the county, that it will scarcely pay for harvesting. The same complaint comes in from all sections East of the mountains, and also from Idaho. With these apparent prospects of a light harvest, grain will necessarily rule at a higher figure than for the past season.

U. S. District Court—Deady Judge.—Proceedings of [illegible]day:

In the matter of Isaac Levy; in bankruptcy; hearing on order to show cause, order adjudging him bankrupt and for warrant to issue.

John Briscoe vs. A. Hinman; demurrer to complaint [illegible]ned; and plaintiff has leave to file amended complaint within ten days, on payment of ten dollars and costs.

Adjourned until Friday, July 2d.

Circuit Court—Upton Judge.—The following were the proceedings in this court yesterday:

E. Groves vs School District No. 6; verdict for plaintiff for $120.

State of Oregon vs George Oakes; indicted for rape; [illegible] and allowed until Saturday morning to plead.

Lyman Williams vs Edgar Poppleton; submitted to the jury.

Outrage Upon a Chinaman.—Some time last week, says the *Advocate*, a Chinaman employed by Bro. Exon, on Columbia Bottom, was ordered away from his work by some ruffian, during the absence of his employer, and on [illegible]g to go, was beaten to death with a club. This is the same spirit which led to the outrages on Chinese in California and the burning of our Church in San Jose.

Vancouver Seminary.—The annual examination at the V[illegible] Seminary will commence on Thursday next, and will continue two days. There will be an exhibition by the students Friday evening. The Board of Tru[illegible] will hold their annual meeting at 2 o'clock P. M. Friday.

Alarm and Stampede Among the Indians.—We learn by private [illegible] that Agent Collins has arrived at Salem from the Alsea Reservation and reports the Indians [illegible] and leaving the reservation. The Indians are greatly dissatisfied with the proposed change of the De[illegible] from civil to military officers.

Gone Below to Load.—The schooner *Alaska* has taken in a part cargo of Salmon and produce, for Honolulu, and will leave to-day for St. Helens, where she is to [illegible] a cargo of lumber. Among the articles taken from this port, are several bales of manilla and straw wrapping paper from the mills of H. L. Pittock & Co.

[illegible].—The Salem folks can't get no Train to orate for them on the 4th, and as the next best thing have concluded to reorganize the society of Ugly-Plugs. They are bound to be no further behind Portland than the nature of circumstances compel them to be.

Held to Answer.—In the Recorder's Court yesterday, John Dougherty was held to answer, in the sum of $500, upon a charge of threatening to kill. Failing to give bonds, he was committed to jail.

The Concert by Miss Mercier.—We acknowledge the receipt of complimentary cards of invitation to Miss Mercier's concert and a copy of the programme. Miss Mercier is up for five vocal, and one piano, solos.

[illegible] Missionary.—The societies of Spiritualists of Oregon have employed the clairvoyant medium, Cleveland, as a missionary for Oregon for one year.

Grand Peace Jubilee.—*Harper's Illustrated Weekly* of the 19th, has an excellent burlesque representation of the great Peace Jubilee recently held in the Coliseum at Boston. Two pages of the paper are covered with a vast mass of human heads, mouths, arms, legs, bodies, etc., in almost an infinite variety of positions, all engaged in executing a *fortissimo* passage in the opera of "Tommy Dodd." The central figure is the musical director who stands upon what looks like stilts, flourishing in one hand a long *baton*, while with the other he is vigorously pulling the telegraph knobs which communicate with bands and choirs too distantly posted to be able to see the *baton*. All around him are big horns, little horns, ditto drums, ditto bells, ditto organs, and ditto every conceivable thing upon which or through which man ever made a noise. The picture must really be seen to be appreciated. If it answer no other purpose, it will convey something of an idea of the [illegible] of the late Peace Jubilee.

Apropos of this, we have a copy of Mose Skinner's grand Peace Jubilee—a burlesque, also. Mose proposes to the people of Boston and its suburbs comprising New York, Chicago, the Little West and the Southern States a programme of musical exercises to continue through five days, in commemoration of the day when R. Lee, Esq., made present of his sword to General Grant—a day that has never been commemorated in any way, except in the hanging of Wirz and the acquittal of Surratt. He suggests the 22d of June, on account of its being the anniversary of the chopping down of the cherry tree by G. Washington, then a boy, but father of the man, and afterwards of thirteen millions of free and happy men, women and children of all sexes. His plan is to build a fence around Boston Common, for a Coliseum, at an expense of $743,000 00, which he thinks practicable, if he can find 743 men, each willing to contribute $1,000 00, or 743,000,000 who will give each a dollar. In illustration of the grand scale (Fairbanks) on which Mose proposes to have the music done, we condense his programme for the second day. The national air of "Old Bob Ridley" is to be performed by all the bands in the country, including "Gideon's Band," Band Joe, West band, a Contra-band, etc., assisted by a choir of 300,000 voices, as follows. 1st verse (very warm), all the bands and 2,000 voices. 2d verse (decidedly hot), all the bands; 5,000 voices, the Great Organ and all the little organs in the country. 3d verse (red hot), all the bands, all the voices; all the organs, 2,000 hand organs, 6,000 jewsharps; 5,000 of the basest viols, rolling of drums, rolling of thunder, ringing of all the church bells, dumb bells, diving bells and South-End Belles, wringing of dishcloths, handkerchiefs and noses, the pealing of 500 cannon, and peeling of oranges, etc., by the entire multitude; blowing of horns, noses and whales; crowing of roosters, yelping of pups, howling of tom cats, braying jackasses, etc., etc. Among the tableaux is the great soul-inspiring representation of Gideon Welles pursuing the *Alabama* in a row boat—to be performed on the Frog Pond. To satisfy the indignation of Northern Radicals, Jeff. Davis will be thrown into the Frog Pond. To satisfy the Southern gentlemen present, he will be immediately bailed out by Horace Greeley, who will use his venerable white hat for the purpose. On the third day an address by Alex Stephens on "The dignity of labor as applied solely to the black man," an address by Seymour, a conundrum by Nasby, an address by A Johnson—subject "Was Judas Iscariot the right kind of a young man for a quiet tea-party?" with a list of the pardons he granted. The programme goes on in similar or richer strains to the close of the fifth day, concluding with a statement that the proceeds, if any are left over, will be devoted to redeeming Mose's trunk, now detained by a boarding-house keeper—the object being about as praiseworthy and practical as such "big things on ice" usually are.

Action against Collector for Suffering "Rainier" to Run without License.

U. S. DISTRICT COURT—DISTRICT OF OREGON.—FRIDAY, JUNE 25, 1869.

John Briscoe vs. Alanson Hinman—Action to recover damages.

This action is brought to recover of the defendant, as Collector of Customs for the District of Oregon, fifteen penalties of $100 each.

The complaint alleges, that between January 1 and May 1, 1868, a steamboat "called the '*Rainier*,'" of about —— tons burden, was engaged in navigating the waters of the Columbia river, within said District and in carrying passengers *and* freight therein.

That between the dates aforesaid and on certain dates named therein, said steamboat arrived and departed from and made trips upon said Columbia river, within said District, from and to certain places named therein—in all fifteen in number.

That at the several times above mentioned, the *Rainier* transported goods, wares and merchandise, *or* passengers, on said Columbia river, and that on neither of said days nor at any time between the dates aforesaid had the *Rainier* any certificate or license as by law required; "and that the defendant, Collector of Customs as aforesaid, has negligently *or* intentionally omitted to enforce the provisions of law against said steamboat for each and every violation thereof as aforesaid, wherefore the plaintiff demands judgment against defendant for the sum of $100 for each omission of the duty of said defendant as above mentioned," etc.

The defendant demurs to the complaint, because it does not state facts sufficient to constitute a cause of action, for that:

1. It does not appear therefrom, what, if any, statute of the U. S. was violated by the *Rainier*.
2. It does not appear therefrom that the defendant did or omitted any act contrary to any statute of the U. S., whereby any penalty was incurred.
3. It does not appear therefrom that the plaintiff has any right or capacity to sue the defendant.
4. Said complaint misjoins acts of said steamboat, some in carrying passengers and some in carrying freight.
5. The allegations therein are in the alternative and do not show precisely what charge is intended to be made.

On June 18, the demurrer was argued by counsel and the cause contined for consideration until to-day.

The first and second causes of demurrer raise similar questions. In these respects the demurrer is well taken. This is an action for penalties given by statute and the complaint must not only state the acts of omission or commission by which they are claimed to have been incurred, but also that they were omitted or done contrary to the form of the statute in such cases made and provided.—(*Bright Fed. Dig.* 638. 10 *Mass.* 39.)

The third cause of demurrer is also well taken. Upon this point the complaint is insufficient. It should allege not only the forfeiture, but that by force of the statute, etc., an action hath accrued to the plaintiff to have and demand of the defendant the penalty forfeited.

A penalty incurred under section 2 of the steamboat act of July 7, 1838, is forfeited to the U. S., with the qualification that one half of it shall be recovered for the use of the informer. For this penalty only the U. S. can sue. (3 *Sum.* 115.) But a penalty incurred under the act of August 30, 1852, by virtue of section 66 thereof, may be recovered by any person who will sue for it.

Before considering the fourth and fifth causes of demurrer, it will be necessary to state substantially the provisions of the act of 1838 and 1852, relating to the forfeiture and recovery of these penalties.

Section 2 of the former act prohibits the transportation of *goods or passengers* upon navigable waters of the U. S. in steamboats, without first obtaining a license from the collector and complying with the conditions of that act; and imposes a penalty of $500 upon the owner for each violation of this provision, which penalty may also be enforced against the vessel.

By Sec. 1, of the latter act, it is provided that no license or other paper shall be granted to any steamboat *carrying passengers*, until the provisions of that act are fully complied with; and if any such vessel shall be *navigated with passengers on board* without such compliance, the owners and vessel itself shall be subject to the penalties provided in Sec. 2, of the act of 1838, to wit $500 for each time she is so navigated with passengers on board.

Sec. 24 of same act, declares it to be the duty of Collectors of Customs "to enforce the provisions of law" against all such steamers arriving and departing; and provides that if such Collector negligently or intentionally omit his duty in this particular he shall be removed from office and be subject to a penalty of $100 for each offence, to be sued for in an action of debt.

Navigating the waters of the Columbia without a license, was not a violation of either act, unless passengers or freight were actually carried or transported on the boat. The allegation of the complaint as to the *Rainier's* being "engaged in navigating the waters of the Columbia river" between January 1 and May 1, 1868, may be laid out of view; while the allegation that she was engaged in "carrying passengers and freight" between the same dates is not sufficiently certain and specific as to time and place.

The allegation that the *Rainier*, on the fifteen trips above mentioned, transported goods, wares and merchandise, *or* passengers, is also insufficient for uncertainty. The statement being in the alternative is not an absolute averment that she carried either. So also, the allegation that the Collector negligently *or* intentionally omitted to enforce the provisions of law against the *Rainier*.

The defendant must have judgment upon the demurrer. Deady, J.

Reed for plaintiff.
Shattuck for defendant.

The plaintiff on application had leave to file an amended complaint within twenty days upon the payment of $10 costs to the adverse party or his attorney.

"Ough."—The contradictions of pronouncing in the termination of "Ough" are amusingly displayed in the following lines:

"Wife, make me some dumplings of dough,
They're better than meat for my cough;
Pray let them be boiled till they're hot through,
But not till they're heavy and tough.
Now I must be off to the plough,
And the boys, when they've had enough,
Must keep the flies off with a bough
While the old mare drinks at the trough."

The Boston *Post* reports that a boy walked round the Coliseum, but nearly starved to death before he accomplished the task.

FROM THE NORTH.

Victoria, June 25.—Yesterday being the traditional anniversary of St. John the Baptist, one of the Patron Saints of the order of Masons, the day was celebrated by the various lodges by a grand picnic to the English camp on San Juan Island.

Hon P. J. Hawkins, administrator of the government, has refused to pardon Henry White, who was sentenced to imprisonment for the shooting of Anderson.

His Honor, Chief Justice Needham sentenced the Barclay Sound murderers, yesterday, to be hung, also the Indian who shot the settler on Salt Spring Island.

BY ATLANTIC CABLE.

London, June 24.—The Irish Church bill will soon come before the House of Lords again, on motion to go into committee. No line of action in dealing with the provisions of the bill has yet been marked out, but the general feeling of the Peers is favorable to making amendments based on the principle of concurrent endowment.

At the Newcastle races to-day, the Northumberland plate was won by "Spy."

The English papers say that two Frenchmen are constructing a balloon to carry ten passengers, four thousand pounds ballast and provisions for a month, and will attempt to make a voyage to the north pole.

At the last telegraphic accounts from the *Great Eastern*, she was 294 knots out from Brest and had paid out 310 knots of cable. The signals through to the shore continued perfect. The weather is delightful.

Another meeting of the Confederate bondholders was held here last evening. The object of the meeting was to protest against that part of Sumner's speech against the *Alabama* claims treaty and to petition the House of Commons against granting any compensation for such claims to the United States, unless adjudicated by an impartial tribunal, on principles of equality and international law.

Gentleman from the rural districts (after vainly endeavoring to solve the mystery of chafing-dishes)—"Look a here, waiter, bring me some oysters, but have 'em biled down stairs. I don't want none of them darned little cook stoves."

We have at our Rooms on hand an article of Old O K Cutter Whisky, to which we call the attention of connoisseurs "and defy competition." One call at the International Saloon will be enough to satisfy the most fastidious. JOHN S. SIBEY & CO.

We, the undersigned Committee appointed to decide upon the merits of the washing done by Kane's Condensed Soap with common Boiler, and the Automatic Boiler, decide that the washing done by KANE'S CONDENSED SOAP is the best, doing the work in a superior manner with less labor, no rubbing being done in using Kane's Soap, but that borax was used in the Automatic Boiler.

The Day fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHAL will continue to sell the very best clothing in that time at remarkably low figures.

"Life Savings and Loan Bank."—The people of the city patronize the Oregon Dispensary in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Everybody takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *ectas*, too numerous to mention. People say it is a pleasure to get sick and be cured at the Oregon Dispensary.

There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.

No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

A Road on Paper.

The *Unionist* says that the so-called military oad, running from the Dalles, via Canyon ity, to Fort Boise, has been accepted by the overnor. We don't think it ought to have een accepted until the company had taken ome of the kinks out of it and established it n something like a direct line. From sevel sources we have information concerning he manner in which this road (on paper) has een established, and all agree that it is not nly needlessly circuitous, but utterly worthess as a road. The route followed is about s crooked as the track of the ancient people hrough the wilderness—the object being to ollow all the valleys in Eastern Oregon and gobble up all the available lands of that section. A large part of this "road" was built imply by driving an ox-cart over the country vhile two men trudged along behind with hovels on their shoulders. The company ave cleaned out the valley of the John Day nd its tributaries; they have taken in all the good lands on Burnt river, Willow Creek and Malheur, and in every instance have located heir "road" so as to run in the middle of he valleys and take everything on both sides. They have been at no expense worth mentioning; and now they are to come into possession of half a million acres of the best lands of Eastern Oregon, thus monopolizing a large part of the national domain which should be open, free to settlers. Moreover, they have located their road for some distance in the John Day country on a road already built by the settlers of that region, and now they propose to make those settlers pay tolls for traveling on a road which was built by their own labor. We have long been convinced that the policy of granting the public lands for "military roads" is a mistake. As a general thing it does the country no good and serves only to put money into the pockets of monopolists. Nobody will ever travel from the Dalles to Snake river by this so-called road. In fact it will never be a road at all; and the only evidence that will remain of its ever having been established, will be the broad belt of good land which is thus taken from the people and bestowed upon a monopoly. The true policy for the Government to pursue is to hurry up the public surveys and throw the lands open to settlement under the homestead act. The people will then find ways through of reaching through the country. The original [illegible] law of Oregon was an actual injury to the country; and every scheme which results in concentrating the public lands into the hands of a few persons must produce injurious consequences.

Pollard's "Life of Jeff. Davis."

The publishers of E. A. Pollard's "Life of Jefferson Davis, with a Secret History of the Southern Confederacy," have furnished us with some of the advance sheets of that work. From the glimpses thus obtained it is manifest that the work will create something of a sensation in both North and South. Mr. Pollard claims to have a great deal of private information as to incidents of the war, and makes his revelations with a positiveness which will carry credence with it. The following [illegible] is a fair example:

"Mr. Davis did not fail to perceive the significance of the Chicago Convention, and was certainly intelligent enough to understand the condition of parties in the North. He had private correspondents in that Convention. Indeed it is well known that during the entire war, Mr. Davis maintained secret communications with many distinguished [illegible] politicians, generally of the Democratic party. The letters and [illegible] from them were so [illegible] that they were kept in a special, private archive entitled the Presidential Bureau of Correspondence. These confidences were kept from Congress, and even from his Cabinet; few persons in Richmond ever knew of the existence of such a bureau; no curiosity was ever admitted to its mysteries; and so anxious was Mr. Davis to [illegible] them that it is a curious fact that some days before the surrender of Richmond, he had them conveyed to a [illegible] of places, where they are yet supposed to be safely deposited. In this 'underground' correspondence Mr. Davis had been well informed of the Chicago Convention; that it meant peace for the North and independence for the South, as a distinguished gentleman of New England wrote him, and that there was no doubt that the success of the Chicago nominees depended on the success of his own administration at Richmond."

Mr. Pollard denounces the "atrocious northern inventions" concerning cruelty to prisoners, but the incidents given in his own narrative tally well with the accounts which we have from the prisoners themselves. He throws the responsibility however, not upon Davis, nor even upon Wirz for his share in the matter, but upon the Commissary General of the Confederacy. But his pages of reminiscences of affairs in Richmond are full of such episodes as these:

"There was an officer of the rank of lieutenant who had charge of the unfortunate creatures, who victualed them by irregular purchases in the Richmond markets, and who was left to determine, as of his own discretion, the measure and article of food. He was removed for a singular freak some weeks after the battle of Manassas. Having had a drunken quarrel with the quartermaster as to who should bury the dead of the prison, he had left two corpses in front of the office of the latter, in a wagon halted in one of the most public streets near the capitol, and, unhitching the horses in sight of a horrified crowd, had abandoned the 'dead Yankees' to take their chances of burial as the authorities, other than himself, might determine. It was a day's scandal in Richmond, and the brutal officer was removed. But for forty-eight hours two thousand prisoners were without a mouthful of food, until a subordinate of the prison, moved by their cries or alarmed by their mutiny, found some barrels of corn meal in the stores of the prison, and fed it to them in buckets of mush."

"The next day Captain Warner represented to General Winder, the principal officer in charge of the prisoners, that there was no subsistence for them, and that they were in the actual pangs of hunger. He was directed at once to make a requisition on Col. Northrop, the cross grained and eccentric Commissary General—an officer whose idea of importance was to have a fit of insolence whenever he was approached, and who was either gruff or hysterical in his official intercourse.

"'I know nothing of Yankee prisoners,' he said, 'throw them all into the James river!'

"'At least,' said Captain Warner, 'tell me how I am to keep my accounts for the *prisoners' subsistence.*'

"'Sir,' said Northrop, slightly inclining his eyes to the anxious inquirer, 'I have not the will or the time to speak with you. Chuck the scoundrels into the river!'"

TEACH BOYS A TRADE.—Of 13,496 prisoners in the penitentiaries of thirty States in 1867, according to the report of the Prison Association just issued, 77 per cent., more than three-quarters, had not learned a trade. Here is a text from which Dr. Franklin could have preached a forcible sermon to parents. A man who has a good trade has an independence. He has need only to be honest and diligent to secure a competence. Bread and butter are sure for him wherever he is. He is sure always of higher wages than he who has no trade; and if his genius and enterprise lead him into some other calling, it is always a satisfaction to know that in case of misfortune he can return to his trade. He has that at any rate; failure in business cannot deprive him of it; his speculations may break down, but he has an anchor to leeward, as the sailors say; his subsistence and that of his family are sure. In this country, where fortunes, quickly gained, are also quickly lost, it is still more necessary and prudent that every young man should learn a useful trade, and learn it thoroughly. No man's future is so secure here but that he would do wisely to have his boys—and his girls, too, for that matter—learn a trade.

Another Job.

What little job is there in loaning the $15,000 paid to the city by the United States for the block sold as a site for Government buildings, that the Democratic majority in the City Council who go out of office on the first of July should be so anxious to take immediate action in the matter? The money, we are informed, has been in the hands of Mayor Boyd since the 5th May, but no effort so far as the public know, has been made to loan it or otherwise dispose of it till now. An election intervened and the Democratic ring was counted out. Suddenly they remember this money and determine to dispose of it in such a way as to forestall the action of the new Council in the premises. An ordinance was introduced at the last meeting of the Council authorizing Messrs. Hallock and Norris, both of whom go out on the 1st July, to loan this money "on such terms and with such security as they may deem expedient," and a special meeting of the Council is to be held on Monday evening to consummate the act. The indications are that there is some jobbery here. Has somebody already got this money—for instance has some one got it in the foundry business making it necessary to use this great haste to fix things up before the change occurs in the city government? The circumstances certainly look suspicious. To put the best face on the matter it is certain that it is very censurable for a Council which has been repudiated so signally by the people to be in such haste to take important business out of the hands of the new Council.

In General.

The Supreme Court of Georgia having held that colored men are eligible to office in that State, it follows that the action of the Democrats in ejecting colored members from the Legislature was unlawful. Those members may now resume their seats. The Georgia question may now be easily settled.

The *Forest Grove Monthly* has begun its second year. Its form has been changed to a folio, and it is printed in a style which makes it quite attractive. In the July number, now before us, we notice several articles of value. The matter published in the *Monthly* is prepared under the supervision of Dr. Marsh.

After all the *Herald's* blowing about the Dalles election, it turns out that the regular Democratic ticket was defeated. The opposition ticket, made up without regard to party, was elected. The principal contest was on Recorder. Jas. A. Campbell, Opposition, defeated John Williams, regular Democrat, by 41 majority.

The *Herald* pretends to think that the recent city election amounted to nothing at all, and asserts that the Republicans in jubilating about it are like "drowning men catching at straws." Before the election the *Herald* told a very different story about the importance of the event. It urged its friends to come out and vote and told them that the event was one of great importance.

The Democratic papers continue to devote nearly all their space to magnified accounts of the disturbances which took place at Washington City on election day. A few negroes kicked up a row at the polls and one of their number got killed; and for a whole month the Democracy have been shrieking about it as if it were the first row that ever occurred at an election. In New York, Baltimore and New Orleans the Democrats almost every year engage in riots compared with which the Washington disturbance was nothing.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 25.—To-day Senators Wade and Conklin and the House Committee of Ways and Means met with the representatives of the six Chinese companies of the city, and several of our leading merchants and bankers. There was an interchange of compliments and sentiments.

A collision occurred about four o'clock this afternoon between the ship *Isaac Jones*, Capt. Boyling, from Nanaimo, loaded with coal, and the French bark *Moeeah*, Capt. Causse, by which the latter was seriously damaged; the former escaped with but slight injury. They had anchored too close together and at high tide the vessels swung around and collided.

It is stated that a slight shock of earthquake was felt in this city and San Jose about 6.20 this morning.

The Democratic primary takes place between four and eight o'clock this evening. As this is the bitterest party fight that the Democrats have had in their ranks for many years, it is not unlikely that there will be considerable excitement in some wards. The main interest centers in the nomination for Mayor.

Joseph Bothe was held to answer on the charge of grand larceny, in stealing a valuable horse. Bail was fixed at $500.

Joseph Coffee was held to answer on eight charges of obtaining goods and money on false pretences. Bail, $400.

Negotiations have been closed with a leading hotel manager in the East for the opening of a grand hotel, corner of Market and Montgomery streets. The extension work on buildings in the course of erection there has been suspended, with the intention of turning them into an immense hotel.

MR. MICAWBER'S ADVICE.—"My other piece of advice, Copperfield, you know. Annual income, twenty pounds; annual expenditure, nineteen eleven and six, result happiness. Annual expenditure, twenty pounds, annual expenditure, twenty pounds ought and six, result misery. The blossom is blasted, the leaf is withered; the god of day goes down upon the dreary scene, and in short, you are forever floored."

A Connecticut *enfant terrible* of pious education earnestly sought of his mother the meaning of the slang phrase "gone sucker," and betrayed why he wanted it by praying, when sent to bed for his questioning, "God bless papa and mamma and baby—but I se been a bad boy, and I guess I'm a gone sucker!"

LAST NIGHT'S DISPATCHES

The Gold Speculators

WASHINGTON, June 24.—When Secretary Boutwell was at Boston, toward the close of the week, he wrote to Assistant Secretary Richardson a letter in regard to the modifications of his plan for the purchase of bonds and sale of gold. He placed the letter with his own hand in the Groton Post-office. The letter was received by Richardson on Monday, and by him it was kept secret until after the close of business. It was not earlier than half past four o'clock when a letter was written to the Assistant Treasurer of New York on the subject and a paragraph furnished the President. Both of these gentlemen are confident that owing to the strictness with which the matter was guarded there could be no premature disclosures on the part of any Government officer.

Gen. Sickles and the Spanish Mission.

CHICAGO, June 25.—A Washington special says that it has not yet been determined whether Gen. Sickles must resign his army commission to accept the Spanish mission, but probably the question will be left open for the next Congress to settle. Gen. Hurlburt sails for Bogota on Friday.

Cuban Filibusters.

NEW YORK, June 25.—It is rumored to-night that Col. Ryan escaped from Ludlow Street Jail, and with 500 men got aboard of a large vessel which immediately sailed for Cuba. It appears that after bail had been refused for Colonel Ryan, yesterday, and Ryan was in charge of a deputy marshal, they went to the Metropolitan Hotel, on leaving which, and when near there, the Colonel and the deputy marshal was surrounded by the friends of the former. Suddenly the deputy was seized and bound and Ryan went to the Cuban rendezvous. Considerable commotion was soon observed among the rescuers, who left in squads for Jersey City, where they collected till last night, when, with Col. Ryan and other officers, they embarked on tug boats, were conveyed to a large steamship in the bay and all safely sailed for their destination. There were 500 men in the expedition.

Col. Currier, formerly on Hooker's staff, and two others were arrested last night on information from the Spanish that they were in the recruiting business for the Cuban army.

The deputy marshal, seized by the friends of Ryan, was treated to a champagne supper, but not allowed to leave their company.

Recruiting for the Cubans has been suspended and will not be resumed till the difficulty between the Junta and Government officials has been settled.

A list of the Grand Jurors who indicted the Cubans, was published in spite of the efforts of the Court officials to keep it secret.

NEW YORK, June 25.—It is reported that during the gathering of the Cuban expeditionists at Jersey City last night, a Spanish spy was found and beaten, but he managed to escape after shooting one of the expeditionists slightly. The U. S. Marshal for New Jersey is reported to have seized the tug boat on which the expeditionists were about to embark. This prevented their departure, and they returned to this city but will sail to-night.

The U. S. steamer *Frolic* has been towed to the lower quarantine. The crew of the *Saratoga* has been transferred to her. Since last report there were four deaths from yellow fever on the *Illinois*. Four new cases were admitted to the hospital from the *Saratoga*.

St. Louis Dispatch.

ST. LOUIS, June 25.—The Agent of the St. Louis and Chicago railroad has received a dispatch directing him to procure transportation to New Orleans for five thousand Chinamen going on Southern plantations.

Several persons have arrived here to-day in five days from San Francisco.

The project of bringing an ocean steamer from New York here, has so far progressed that ten thousand dollars has been raised as a guarantee against loss. Capt. Joseph Brown will start to New York to-morrow to charter a vessel. River pilots will accompany her from New York to New Orleans, and there take her in charge.

The jury to-night in the Donaldson murder trial, brought in a verdict of not guilty.

The Kansas Land Troubles.

KANSAS CITY, June 24.—Advices from the neutral lands state that one-third of a band of 300 Indians appeared at a point ten miles south of Fort Scott, on the line of the railroad, and drove off all the laborers and pulled up the stakes.

LEAVENWORTH, June 24.—A body of troops from Port Gibson will arrive on the Jay Purchase to-morrow and preserve peace on the neutral lands.

Miscellaneous.

PROVIDENCE, R. I., June 24.—The opening race of the Naragansett Park took place to-day. The attendance was very large. The first race was won by Mr. Mace's Locust; fastest time, 2 44½. The second race was won by Rhode Island, three straight heats, beating Bashaws, Jr., best time, 2.28½. The racing will be continued to-morrow.

BOSTON, June 24.—Thomas Morris and Thomas Gallagher, the former arrested for vagrancy and the latter for assault, were found dead this morning in the Dorchester Almshouse, where they were confined. The cause of death is a mystery which the Coroner's inquest will endeavor to explain.

SPRINGFIELD, Mass., June 24.—The Commandry of the Knights Templar arrived here today and attract much attention. They leave to-morrow for Newburyport to join the Masonic Celebration there.

CHICAGO, June 25.—Specials from New York say the East River Association held a meeting today to vote on the report of the Bridge Commissioners. They will oppose the bridge under one hundred and fifty feet above the water. It is understood that the Commissioners recommend one hundred and thirty five feet.

A contract has been made with Mr. Mollefort, a French Engineer, for widening and deepening the Hell Gate work. He will commence immediately. A new appropriation will be asked for at the session of Congress. The plans have been completed for the custom house and assay office at the battery, with piers and basins for Government use.

Some alarm was excited among water drinkers to-day by a statement in the *Times* that a slaughter house, gas works and other establishments have been erected on the Croton river and lake which supply the city with water. The drainage from the gas works affect the water in the tributaries of the lake so that the cattle will not drink it. There are fears that the health of the city will be endangered.

Maine Politics.

BANGOR, Me., June 24.—The Republican State Convention meets to day and promises to be lively and exciting, unless the delegates to arrive later in the day change the complexion of affairs. Good judges estimate that Chamberlain will receive a majority of 150 or 200 in a vote of from 750 to 800. Hon. L. M. Morrill has been elected President of the Convention.

ABORTIVE SPITE.—The Democratic Legislature of Ohio, passed a Visible Admixture Law, intended to exclude from the polls a citizen having colorable suspicion of African descent, and grossly insulting those even faintly suspected. The Supreme Court disposed of the iniquitous measure by declaring it unconstitutional. Another Visible Admixture Law, amendatory to the first, was passed, pronouncing extraordinary penalties on those who violated the law. Attorney General West, on the application of a citizen, has pulled the fangs of the last Democratic viper by showing that it cannot affect those already declared by the Constitution and the Supreme Court to be the voters—the half white; that it has not and cannot change the status of a voter, and that consequently it is "mere sound and fury, signifying nothing." It is enough to move with compassion the bowels of a stone to see Democratic legislators work so hard to accomplish so little.—*Cleveland Herald.*

Miss Jones, postmistress at Winterset, Iowa, recently married Mr. Alfred Smith. Mrs Smith is not known to the Department as postmistress. Miss Jones has no longer a legal existence, and Smith is anxious to know whether he has married into the post-office, or has married the postoffice out of the family.

A good old lady sat down in the store of a friend, one day, close to a large and very clear mirror which went from floor to ceiling. She saw herself in the glass, but thought it was somebody else, and in a few moments went to the young lady clerk and said to her "Who is that old lady who was sitting alongside of me?"

Old Guzzlefaction, having drank nine mugs of cider at a neighbor's house one evening, observed, on rising to leave "I believe, neighbor T., I'll take a leetle more of your cider I love good cider as well as anybody, but as for a swilling it down, as some people do, I never could."

"I believe that mine will be the fate of Abel, said a devoted wife to her husband one day. "How so?" inquired the husband. "Because Abel was killed by a club, and your Club will kill me if you continue to go it every night."
